Master of Science in Information Systems

Indiana University, Luddy School of Informatics, Computing, and Engineering – Bloomington, IN   May 2025
Bachelor of Science in Informatics; Minor: *Business*   GPA: 3.58/4.00
- *Dean's List - 4 semesters:* Recognized for academic achievement with a term GPA of 3.7 or above

EXPERIENCE

Shoe Carnival Inc, – Evansville, IN   June 2024 – August 2024
Accounting Department Intern
- Worked directly with the CFO on stock price performance index research to identify the most accurate broad-based and industry-specific benchmarks for SEC-required stock price performance graphs, conducting data collection, extraction, and analysis to evaluate market trends, peer performance, and shareholder returns
- Built structured financial datasets in Excel to improve benchmarking accuracy and support data-driven decision-making for public reporting
- Conducted executive compensation benchmarking, gathering and structuring peer pay data in Excel to assess pay-for-performance alignment and refine proxy statement disclosures
- Led W-9 outreach to 200+ vendors during acquisition integration, managing communication, document collection, and real-time compliance tracking in Excel

Phi Gamma Delta, Bloomington, IN   August 2022 - April 2024
Breakfast Cook
- Managed breakfast operations for 120 members twice weekly, planning menus, scheduling prep, and coordinating workflows to ensure on-time, high-quality service
- Organized and supervised kitchen processes, balancing multiple tasks under tight deadlines while maintaining safety, cleanliness, and operational efficiency

Rolling Hills Country Club, Newburgh, IN   May 2023 - August 2023, May 2022 - August 2022
Dining Room Server
- Managed multiple tables during peak dining hours, delivering service that met the high standards of a private country club
- Provided attentive communication and proactive assistance to members, fostering positive relationships and enhancing satisfaction

ACADEMIC PROJECTS

Project Manager – IU SmartParking Web Platform (Capstone Project)   September 2024 – April 2025
- Led a 4-member team of Informatics students in designing and developing a full-stack web platform to improve parking access at Indiana University, applying leadership, coordination, and problem-solving skills
- Coordinated with teammates and instructors to review progress, integrate feedback, and incorporate peer and stakeholder suggestions into platform features and deliverables
- Managed a year-long sprint schedule, running weekly meetings, delegating tasks, and tracking milestones to align with Capstone deadlines
- Directed campus-wide user research and usability testing through interviews and observations, translating findings into prioritized features and iterative design enhancements
